

Provider Join Physicians Network

Physician Health has been a leading independent medical group. Our vision, to create the greatest healthcare community the world has ever seen, seeks to transform the future of healthcare in America. From the clinic to our corporate offices, our affiliated physicians are trusted partners in leading this transformation.

Enabling Independent Practice Success

By joining our IPA, you can maintain the independence of private practice while benefiting from the resources, support and partnership of a national leader in health care.

We can help you enhance your practice, whether you are interested in:

- Joining a community of like-minded physicians
- Programs to support patients with multiple or chronic conditions
- Marketing support to reach new communities and health plans
- Enhance member engagement, quality, and satisfaction
- Expand your practice with new member enrollment collaboration
- Practice management services and training

What Sets Us Apart

We pride ourselves in being a physician-led community. Our IPA Medical Directors and Operations team will work closely with you to ensure you to have the tools necessary to achieve success and compliance with health plan requirements, and ensure you are part of our Physician community.

Physician-centric culture and support:

Physician leadership in all levels of the organization

Physician-to-physician education from experienced Medical Directors that specialize in quality, utilization and documentation

Deep referral network and health plan relationships

Robust specialist network and easily accessible referrals portal

Network of high-quality hospital partners with dedicated hospitalists & care managers

Quality-based bonuses & incentives for our high-performing affiliates

Competitive contracts for Medicare Advantage, Commercial, Medicaid and Medicare ACOs

Population health expertise & programs to enhance your patients' health:

Disease management programs

Proven Coordinated Care Model for high risk patients

A broad set of programs, resources, and collaborative clinical support for you and your patients

Tools and resources to manage your practice efficiently:

Physician information portal to access your patient data in a secure, HIPAA-compliant environment

Patient intervention reports to proactively manage and coordinate your patients' care from one location

Physician Services Consultants to work with your practice improving processes and performance

Practice optimization & support through administrative support

Marketing support during Medicare Open Enrollment and year-round
